

Provo River Project

Provo River Water Users Association is a private non-profit corporation organized in 1935 for the purpose of sponsoring the Deer Creek Division of the Provo River Project, a US Bureau of Reclamation water project. The Project extends over five counties and diverts water from three river basins. Deer Creek Dam and Reservoir are the primary Project features. The Association also operates and maintains many miles of canals, tunnels, and river dikes as part of the Project. The Project provides a significant portion of the drinking water supply for approximately 1.5 million people along the Wasatch Front in north-central Utah. Project water is also used for supplemental irrigation of agricultural land in Summit, Wasatch, Utah, and Salt Lake Counties.
